Slow Down Baby

Par Illinois Jacquet

Album : Memories Of You

Slow down, little girl, well, I've got the green light too

Well, slow down, little girl

Well, I've got the green light too

Well, when the red light is on

I'm gonna catch up with you

Don't leave me, baby

You don't have to go

Please, don't leave me, baby

You don't have to go

I said I'd never lose you, but I'm not a lucky so-and-so

Took everything I had

Bags, rags and cash

What you puttin' down ain't a thing to me but trash

So slow down, little girl

Well, I've got the green light too

When the red light is on, I'm gonna catch up with you

Well, there'll be no making up, baby

You've changed locks on the door

The house up for sale and I don't live there no more

So slow down, little girl

Well, I've got the green light too

Well, when the red light is on, I'm gonna catch up with you

Slow down, I've got you now
