Giants (Paused)

Par Imagine Dragons

Album : Mercury - Acts 1 & 2

Take a hit of anything

To escape it all, I'm suffocating

A sharpened blade of reality

Sometimes I wanna hurt me

I know it's hard to hear, but I'm

Waiting for the new year

Don't wanna waste my life chasing white

Try to swim towards the light

Coming up for air in the deepest of the deep ends

I thought I'd learned it all, but boom, the plot thickens

Sleeping with giants, I'm tiptoeing quietly

Feeling it all, it's sobriety

La-la-la-la-la-la-la-la

Got so tired of feeling numb

La-la-la-la-la-la-la-la

Well, take a look what I've become

Sleeping with giants, I'm tiptoeing quietly

Feelin' it all, it's sobriety

I wanna make you proud of me

But slowly, I am killing me

Playing with chemistry

Floating to the ceiling

Always rock 'n' roll 'til you die, you know, you been flying

Now I'm shaking at night, sweating the sheets out

Grinding my teeth out

But still the world will glamorize it all

Coming up for air in the deepest of the deep ends

I thought I'd learned it all, but boom, the plot thickens

Sleeping with giants, I'm tiptoeing quietly

Feeling it all, it's sobriety

La-la-la-la-la-la-la-la

Got so tired of feeling numb

La-la-la-la-la-la-la-la

Well, take a look what I've become

Sleeping with giants, I'm tiptoeing quietly

Feeling it all, it's sobriety

If I could leave one thing for you

It's exactly what not to do

I'm so proud of you

Take a look what I've become

Oh, take a look what I-

Coming up for air in the deepest of the deep end

I thought I'd learned it all, but boom, the plot thickens

Sleeping with giants, I'm tiptoeing quietly

Feeling it all, it's sobriety

La-la-la-la-la-la-la-la

Got so tired of feeling numb

La-la-la-la-la-la-la-la

Well, take a look what I've become

Sleeping with giants, I'm tiptoeing quietly

Feeling it all, it's sobriety
