# Stars Will Align

Par Imagine Dragons

*Album : LOOM*

**Our stars will align**

**They say that wine gets better with time**

Tonight I'm gonna put it on the table

Gonna leave it all out for you (for you)

Tonight, I'm gonna show you that I'm able (able)

Remind you what we've got to lose

**Standing in your window, middle of December**

Times change but I'll always remember

**I don't know where I'd be without you (ah-ah)**

**One more sun and one more winter**

**I wanna spend life with you**

**I don't know what I'd be without you**

**They say that wine gets better with time**

**And I know that's true (true)**

**And I know that's true (true)**

**I know our stars were meant to align**

**And I know that's true**

**Our stars will align**

**Our stars will align**

**Our stars will align**

Wishin' I could find the words to say

To show you how you paved the way

A million days is not enough

A billion rays within your sun

**Standing in your window, middle of December**

Times change, but I'll always remember

I don't know where I'd be without you (ah-ah)

One more sun and one more winter

I wanna spend life with you

I don't know what I'd be without you

They say that wine gets better with time

And I know that's true (know that's true)

And I know that's true (true)

I know our stars were meant to align

And I know that's true (ooh)

They say that wine gets better with time

And I know that's true (know that's true)

And I know that's true (true)

I know our stars were meant to align

And I know that's true

**Our stars will align**

**Our stars will align**

They say that wine gets better with time (our stars will align)

**(Our stars) stars will align**

I know our stars were meant to align (our stars will align)

**(Our stars) stars will align**

If our love goes cold

Will you hold on? (Hold on)

And as we both grow old

Will you keep strong?
