Good Life

Par Isly

Album : Nostalgia

This is the good life

I tasted all the things this world can give

And I don't think that life was meant to feel this empty

I let the culture tell me how to live

And still I feel like there's just something missing

And then You opened my eyes to see

The better life that You had planned for me

A born-again believer, God, You set me free

Now I'm walking in the good life

I'm never going back to how it used to be

Where everything I was is now a memory

Where nothing else compares to all Your love for me

Now I'm living in the good life

Welcome to the good life

Welcome to the good life

I can't imagine any life outside You

To gain the world and slowly lose myself

I'd leave it all behind, the so-called "finer things" in life

'Cause all that I want is Your love

And then You opened my eyes to see

The better life that You had planned for me

A born-again believer, God, You set me free

Now I'm walking in the good life

I'm never going back to how it used to be

Oh, where everything I was is now a memory

Where nothing else compares to all Your love for me

Now I'm living out the good life

Welcome to the good life

Welcome to the good life

Oh, this is living the good life

Don't you let it pass you by

Don't you let it pass you by

Oh, this is freedom in real time

Don't you let it pass you by

Don't you let it pass you by

Welcome to the good life

Welcome to the good life

Welcome to the good life

Welcome to the good life

Welcome to the good life
