Kings & Queens (Hands Up Mix)

Par Italobrothers

Album : Future Trance Vol. 74

Waiting for the night to shine like a star

Everyone no matter where you are

If you're near or far

And this is what we need, what we will be

Clearing black for all the world to see

This is you and me

Woouo we're the kings and the queens of the night

Woouo we're the kings and the queens of the night

Woouo we're the kings and the queens of the night

Woouo

Woouo we're the kings and the queens of the night

Woouo we're the kings and the queens of the night

Woooo we're the kings and the queens of the night

Longing for the light to fade from the sky

Everyone let's raise your hands up high

To the day we die

This is what we like, it's what we do

All along it's gonna get us through

This is me and you

Woooo we're the kings and the queens of the night

Woooo we're the kings and the queens of the night

Woooo we're the kings and the queens of the night

Woooo we're the kings and the queens of the night

Kings and the queens

Woooo we're the kings and the queens of the night

Woooo we're the kings and the queens of the night
