# Cosmic Girl

Par Jamiroquai

*Album : Top 40 En Tipparade uit 1996*

I must've died and gone to heaven  
'Cause it was quarter past eleven  
On a Saturday in 1999  
Right across from where I'm standing  
On the dance floor she was landing  
It was clear that she was from another time

Like some baby Barbarella  
With the stars as her umbrella  
She asked me if I'd like to magnetise  
Do I have to go star-trekking  
'Cause it's you I should be checking  
So she laser beamed me with her cosmic eyes

**She's just a cosmic girl**

**From another galaxy**

**My heart's at zero gravity**

**She's from a cosmic world**

**Putting me in ecstasy**

**Transmitting on my frequency**

**She's cosmic**

I'm scanning all my radars

Well she said she's from a quasar

Forty thousand million light years away

It's a distant solar system

Tried to phone but they don't list 'em

So I asked her for her number all the same

She said, "Step in my transporter

So I can teleport ya

All around my heavenly body"

Oh, this could be a close encounter

I should take care not to flounder

Sends me into hyperspace

When I see her pretty face

**She's just a cosmic girl**

**From another galaxy**

**My heart's at zero gravity**

**She's from a cosmic world**

**Putting me in ecstasy**

**Transmitting on my frequency**

**She's cosmic**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

**Sends me into hyperspace when I see her pretty face**

She's just a cosmic girl

From another galaxy

Transmitting on her frequency

Yeah cosmic, oh

Can't you be my cosmic woman?

I need you, I want you

To be my cosmic girl, for the rest of time

Oh, I'm losing my love

Oh, my cosmic girl yeah

She gives me ecstasy
