excuses

Par Jessica Baio

Album : UNSAID

Excuses, excuses

I can see right through it

Who are you tryna fool this time?

When you call me and say sorry

We both know you don't mean it, no

Defensive, don't listen

Then love to play the victim, oh

Whatever you need, yeah, go ahead and put it on me

All the lies, lies, lies, yeah

I know that it's useless, we both know what the truth is

So keep on, keep on

Making these excuses, excuses

I can see right through it

Who are you tryna fool this time?

Excuses, excuses

What lie are you choosing?

Why do I even try?

Ha, ha, ha, ha, ha

Ha, ha, ha, ha, ha

I hate it, you drop every reason

But you still don't see that actions have consequences

Wasted all these conversations

Hoping that you'd come around

But you're still pointin' the blame, and I take the bait, and

Now it's a long way down (way down)

But you're never changing, I'm losing patience

Giving you the benefit of the doubt

Making these excuses, excuses

I can see right through it

Who you tryna fool this time?

Excuses, excuses

What lie are you choosing?

Why do I even try?

Ha, ha, ha, ha, ha

Ha, ha, ha, ha, ha

Ha, ha, ha, ha, ha

Ha, ha, ha, ha, ha

Don't wanna hear no more excuses

'Cause if I do, I'm gonna lose it

Don't wanna hear no more excuses

Why you gotta lie to me?
