Stand Up (Digital Album Version)

Par Jet

Album : Shine On

Too bored to live, to young to die

If you get too tall I'll cut you down to size

T.V fear sells brand new cars

My love lives with my guitar

It's easy to feel that free

When you know what you want to be

Stand up, you got to live while you can

Stand up, burn up before you fade out

Stand up, don't you follow the crowd

Stand up, you got to live in the now

Stand up, there's nothing holdin' you down

Walk on, with your feet off the ground

How they gonna stop you now?

How they gonna stop you now?

So learn to love or learn to lie

Don't sit and watch the world go by

T.V fear sells brand new cars

My love lives with my guitar

It's easy to feel that free

When you know what you want to be

Stand up, you got to live while you can

Stand up, burn up before you fade out

Stand up, don't you follow the crowd

Stand up, you got to live in the now

Stand up, there's nothing holdin' you down

Walk on, with your feet off the ground

How they gonna stop you now?

How they gonna stop you now?

Never gonna stop you now

They got the mouth

We got the soul

Come on now honey wont ya let it roll

You got to move

Don't hang around

Come on now honey can you here me now

Stand up, you got to live while you can

Stand up, burn up before you fade out

Stand up, don't you follow the crowd

Stand up, you got to live in the now

Stand up, there's nothing holdin' you down

Walk on, with your feet off the ground

How they gonna stop you now?
