Summer Sucks

Par Jill Shaw

Album : MNM Big Hits 2012 Vol 3

Verse

I waited for it all year long

But now I'm glad that it's all gone

It should have been all sunny days

Riding softly blue-green waves

Prechorus

So the days are getting shorter and the memories of you

Now hell yeah it's true

Chorus

Summer sucks

And all my friends are out of town

Getting drunk and freaky fly

Doing all I wanna do

Summer sucks

And all my friends are out of town

You're the only one around

To waste my time

But you don't really have a clue

Summer sucks and so do you

Verse

One is such a lonely number

And I was blinded by the sun

Guess that makes me even dumber

Love makes a fool of anyone

Prechorus

So the days are getting shorter and the memories of you

Now hell yeah it's true

Bridge

Can you please please disappear

Am I making myself clear?

I was distracted, not attracted

Just get out of here, 'cause
