Every Tub

Par Jimmy Cliff

Album : The Best of Jimmy Cliff

Eeeee bam bam bam

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Well I know I am your brother

And we're servants for each other

So we got to pull together

Inna any kind of weather

Yes its one a-watch the other

And we got to live together

But don't be a lazy bum

Or you will end up inna slum because

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

In this continuous chain of life

Everyone must play a part

What you say from your mouth

You should mean it in your heart

We're leaning on each other

And we must understand

So you bear me up I'll bear you up

For the good of everyone cos

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Well, every man for himself

And God for us all

If I see you start to stumble

I'll catch you before you fall

But you got to help yourself

Before you help someone else

If you don't do for self

You can't turn to no one else because

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Yes, every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Bam bam bam now now now now now now now

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Yes, every tub hafe sit on its own bottom

Every man hafe stand on his own two feet

Well, I know I am your brother

And we're servants for each other

So we got to pull together

Inna any kind of weather

Yes a-one a-watch the other

And we got to live together

But don't be a lazy bum

Or you'll end up inna slum because

Every tub hafe sit on its own bottom

Every man hafe stand on his own two feet
