# I Don't Wanna Live Without Lovin' You (Live)

Par Joe Cocker

*Album : Alive in America*

Every morning I feel so bad

Got the worst old feeling that I ever had

Call me a doctor, doctor right away

'Cause I just can't make it through another day

**I guess I'm one such one**

They try to break your heart just like a bone

I suffer now

**I don't want to live without loving you**

**And I know you won't forgive me for the things I do**

**I don't want to live without loving you**

**I can't forget you, darling, I'm so blue**

You sure know how to string a noose

It's no use fussing, I ain't gonna get you back again

You don't love me anymore

You took my love and tore me apart

**I guess I'm one such one**

Maybe I just had to suffer, baby, I don't know

**I don't want to live without loving you**

**And I know you won't forgive me for the things I do**

**I don't want to live without loving you**

**I can't forget you, darling, I'm so blue**

**I don't want to live without loving you**

**And I know you won't forgive me for the things I do**

But I don't want to live without loving you

**I can't forget you, darling, I'm so blue**

And deeper than a lot, it's hard to get me

But lonely, Lord, I get lonely

Suffer, suffer, I just don't know what

I just love you, no other way, God damn it

I just love
