Spirits (feat. Saffron)

Par Junkie XL

Album : A Broadcast From The Computer Hell Cabin

Junkie XL is in the house

Junkie XL is in the house

So you wanna play games, sweetie

You think you're such a smooth operator

You're tempted by fame

And you think my bark is worse than my bite

Your breath smells like sulfur

Remember your the dancing cougar

I wouldn't want you conquered

You'll tumble all again, you're so far

'Cause I got friends in high places

Don't cross 'em that's a chance you've taken

I got friends in all the right places

Listen, look behind 'cause they're coming for you

Don't twist my good nature, not my fault

You can look in the mirror, you laugh like a hyena

Listen up 'cause you don't wanna mess with me

They're after you, they're coming for you, now I've got enough

'Cause I got friends in high places

Wouldn't cross them, that's a chance you're taking

I got friends in all the right places

Better look behind 'cause they're watching you

'Cause I got friends in high places

Don't cross 'em that's a chance you've taken

I got friends in all the right places

Listen, look behind 'cause they're coming for you

They're after you, they're coming for you

So you wanna play games, sweetie

You think you're such a smooth operator

You're tempted by fame

And you think my bark is worse than my bite

Your breath smells like sulfur

Remember your the dancing cougar

I wouldn't want you conquered

Your tumble will only get you so far

Listen up 'cause you don't wanna mess with me

'Cause I got friends in high places

Don't cross 'em that's a chance you're taking

I got friends in all the right places

Better look behind 'cause they're coming for you

'Cause I got friends in high places

Don't cross 'em that's a chance you're taking

I got friends in all the right places

Listen, look behind 'cause they're coming for you

They're after you, they're coming for you
