WALKING AWAY

Par Justin Bieber

Album : SWAG II

Days go by so fast, I wanna spend them with you

So tell me why you're throwing stones at my back

You know I'm defenseless, oh

And, girl, we better stop before we say some shit

We've been testing our patience

I think we better off if we just take a break

And remember what grace is

Baby, I ain't walking away

You were my diamond

Gave you a ring

I made you a promise

I told you I'd change

It's just human nature

These growing pains

And baby, I ain't walking away

And ev?ry time you don't say my name
I'm remind?d how I love when you say it

I know we have this moment to face

Baby, I ain't walking away

Things take time, girl
Let's see what we can do, uh
(We can do, we can do, we can do, we can do)
'Cause even when they leave
I keep on dreaming of the best parts of you, oh
And girl, we better stop before we say some shit
We been testing our patience (Oh, yeah, oh, yeah)

I think we better off if we just take a break

And remember what grace is

Baby, I ain't walking away

You were my diamond

Gave you a ring

I made you a promise

I told you I'd change

It's just human nature

These growing pains

And baby, I ain't walking away

And every time you don't say my name
I'm reminded how I love when you say it

I know we have this moment to face

But baby, I ain't walking away

Baby, I ain't walking away

Oh, oh (Oh, baby)

Walking away

Baby, I ain't walking away

You were my diamond

Gave you a ring

I made you a promise

I told you I'd change

It's just human nature

These growing pains

Baby, I ain't walking away
