Crying out

Par Kasper Fell

Album : Crying out

Too much wrapped in my mind

I'm crying out for you tonight

You need it

Oh best believe it

You say you need it

And I believe it

You've been defeated

So just delete it

Oh my!

Do I really want to numb my mind

I just gotta shake it off tonight

Is it real or not show me signs

I just wanna get it off of me

I'll show you how

Get me up I'm falling down

On my knees I'm crawling now

Off of me I'll show you how

Yeah I'm falling down

Yeah I'm falling down

Yeah I'm falling down

Yeah I'm falling down

If you run away I'm a numb the pain

If you feel ok I'll be happy babe

If you tell me things I won't contemplate

If you run away I won't feel the same

Oh I won't feel the same no more

No I won't

No I won't...

Too much wrapped in my mind

I'm crying out for you tonight

You need it

Oh best believe it

You say you need it

And I believe it

You've been defeated so just delete it

Oh my!

Do I really want to numb my mind

I just gotta shake it off tonight

Is it real or not show me signs

I just wanna get it off of me

I'll show you how

Get me up I'm falling down

On my knees I'm crawling now

Off of me I'll show you how

Yeah I'm falling down

Yeah I'm falling down

Yeah I'm falling down

Yeah I'm falling down
