### Increase (H)

Par Katatonia (H)

*Album : The Great Cold Distance (Ltd Ed Box)*

Vapor (vapor), as thin as it gets

I stare right through (stare right through)

**The severe (the severe) sickness in this room**

**Not mine (not mine), it comes from you**

**Soul cold, indeed**

**There won't be a time when I'm at ease**

**Increase coldness**

**Increase ignorance**

Please (please), rewind and look at you

As on film (as on film), you will see a mask of shame (a mask of shame)

I think you will (I think you will) perceive (perceive)

Your position in life, so unworthy (so unworthy)

**The severe (the severe) sickness in this room**

**Not mine (not mine), it comes from you**

Find and twist the answer

Save no one from harm, as seen in the vision

Sick sleep, sick dead earth

**Soul cold, indeed**

**There won't be a time when I'm at ease**

**Increase coldness**

**Increase ignorance**
