# Chang'e

Par King Gizzard & the Lizard Wizard

*Album : The Silver Cord*

Who should we please?

Who's to believe?

Who should we change for?

Who could we be?

When my race is done, how did I run?

Did I par the course and pass the baton on?

Vote with your feet

Make company

Form a military of peace and kill the king

Be a citizen of planet earth

Be a bigger man or woman

'Cause we all can

**Change, change, change**

Change for its own sake

Uniformity gave me a belly ache

I want a mutiny

My mind is finally awake

Who could we be given equal opportunity?

What could we see given equal chance to actually

Change? Change, change

**Change, change, change**

**Is this what we consider changing for the better? Maybe**

Is this what we consider changing? Ah, save me

**Is this what we consider changing for the better? Maybe**

**Is this what we consider changing?**

**I'm changing, I'm changing**

**Is this what we consider changing for the better? Maybe**

Is this what we consider changing? (Change)

**Is this what we consider changing?**

**I'm changing, I'm changing**

## Is this what we consider changing?

We're changing pace, high stakes  
So called heroes wearing fake capes  
Critically acclaimed, clinically deranged  
Push the buttons, keep on frontin'  
'Til they hear the thumpin  
Somethings coming up the hallway  
Out of the left field lane, hey  
My stomachs turning from the vermin up-skirt observing  
Power hungry tryna draw the curtains from the public person  
But there ain't no slicker villain that's deserving a  
Serving on the killing floor  
Put 'em on the chopping board for all to see  
I'm a sniper hiding in the tower  
I'm picking them off one by one  
Gateway drug to the only solution  
Cutting out their tongues before they jump the gun  
I'm the like the cupid trying bring the love  
But you keep getting out of my range  
No strings on my bow with broken arrows  
Running low on ammo to make a change

**Buildings that you know, people come and go**

**Are a certain way, always are the same**

**And then you get the news that obliterates your view**

**Amputate your truths, the significance has changed**

**Hospital inane, meaningless and grey**

**But lie within the walls and the significance will change**

**What would it take for us to change the game?**

**Maybe our existence is significance in vain**

The significance has changed

**Maybe our existence is significance in vain**

**Buildings that you know, people come and go**

**Are a certain way, always are the same**

**And then you get the news that obliterates your view**

**Amputate your truths, the significance has changed**

**Hospital inane, meaningless and grey**

**But lie within the walls and the significance will change**

**What would it take for us to change the game?**

**Maybe our existence is significance in vain**

What would it take to build an ark for me and my friends?

Escape this old place with all that creeps and fish in the sea

And all that flies and all the bugs inside of me

Take all the good things and leave the human beings

**Bah badah bah duna boo bah bah, bah banah banah boh boh**

**Bah badah bah duna boo bah bah, bah banah banah boh boh**

**Bah badah bah duna boo bah bah, bah banah banah boh boh**

**Bah badah bah duna boo bah bah, bah banah banah boh boh**

**Bah badah bah duna boo bah bah, bah banah banah boh boh**

Bah badah bah duna boo bah bah, bah banah banah boh boh (change)

**(Burn it up, burn it up)**

**(Burn it up, burn it up, change)**

**(Burn it up, burn it up)**

**(Burn it up, burn it up, change)**

**(Burn it up, burn it up)**

**(Burn it up, burn it up, change)**

(Burn it up, burn it up, burn it up)

Woo

Woo (burn it up, burn it up)

**(Burn it up, burn it up)**

**(Burn it up, burn it up)**

(Burn it up, burn it up) woo
