I Do What I Want (Internet Viral Remix)

Par Kira

Album : I Do What I Want (Internet Viral Remix)

Some days I

Just wanna crush these walls and get away

I'm growing tired of the migranes

These people talk but they don't know me

Know me

Nobody does

Ready or not

I'll count the shots off and the fight ain't over

You couldn't touch me even when life offers

Don't wanna hear nothing from nobody

Nobody

Nobody does

It's way too late

No way to save

The little girl that I used to be

Your dream will end

It's my turn to go away

You can never understand how it feels to be on your imagination

Everybody want my life and I've got no patience

Can't keep the motivation

Don't need any confirmation

I'll set my own direction

Baby, listen up and get in line

'Cause before I'm going, I'm gonna be eating dinner

Popeye

Ready or not

I'll count the shots off and the fight ain't over

You couldn't touch me even when life offers

Don't wanna hear nothing from nobody

Nobody

Nobody does

It's way too late

No way to save

The little girl that I used to be

Your dream will end

It's my turn to go away

Some days I

Just wanna crush these walls and get away

I'm growing tired of the migranes

These people talk but they don't know me

Know me
