Asari Love Song

Par Kitty

Album : 2016 Adult Swim Singles Program

You ain't gotta be scared of me

You want to get caught in my singularity

Can't bear to look away for a minute

I know you're shy, but why?

I'll take you high

Your face is so white

Hey, it's alright

I got you

Got my own dimension

You look like a perfect specimen

Best of them

Take you to my heaven

Come and be my vessel

I see your potential

It's electric

It's so electrical

We can zoom, I'll give you tunnel vision

Universal love, you see the moon and the sun

And feeling little in the middle

Of the supernova

Wonder if it's real and safe

Boy, it's okay

I got you

Got my own dimension

You look like a perfect specimen

Best of them

Take you to my heaven

Come and be my vessel

I see your potential

It's electric

It's so electrical

These stars, they shine and light your face

I'll give you a taste of the magic

These stars, they shine in through that window

Our love's intergalactic

These stars, they shine and light your face

I'll give you a taste of the magic

These stars, they shine in through that window

Our love's intergalactic

I got you

Got my own dimension

You look like a perfect specimen

Best of them

Take you to my heaven

Come and be my vessel

I see your potential

It's electric

It's so electrical
