honey

Par Kwes

Album : Meantime EP

An *** perched on the counter

But my mind always wanders

Rapids brought me home. Since I saw you up there in the cupboard

My leafy heart grew fonder.

To your self I want to show.

Looking at your glow all day and night,

Despite you being out of reach

None of this, I beam with delight.

I'm stuck on you honey,

I'm stuck on you, yeah.

X2

You're my gold at the end of the rainbow.

My pot of gold,

You had my heart and slam drunk.

Then we get confused

Be together

When loves starting to break down,

It will last forever.

I'm stuck on you honey.

I'm stuck on you, yeah.

X7

I'm stuck on you honey.

I'll stick with you.
