# Easy Love (Extended)

Par Lady

*Album : Easy Love*

In everything I do

I only think of you

A universal language

That's understood

Please let me know

Exactly what you want

So baby, if you feel it

Speak it to me, speak it to me

Easy love that you're looking for baby

Easy love that I need, darling

All the things you're giving me

Just makes it hard to see

Easy love that you're looking for baby

Easy love that I need, daling

All the things you're giving me

Just makes it hard to see

In everything I do

I only think of you

A universal language

That's understood

Please let me know

Exactly what you want

So baby, if you feel it

Speak it to me, speak it to me

Easy love that you're looking for baby

Easy love that I need, darling

All the things you're giving me

Just makes it hard to see

Easy love that you're looking for baby

Easy love that I need, daling

All the things you're giving me

Just makes it hard to see

In everything I do

I only think of you

So baby if you feel it

**Speak it to me, speak it to me**

**Easy love that you're looking for baby**

**Easy love that I need, darling**

**All the things you're giving me**

**Just makes it hard to see**

**Easy love that you're looking for baby**

**Easy love that I need, daling**

**All the things you're giving me**

**Just makes it hard to see**
