# Don't Leave Me Lonely

Par Lari White

*Album : Lari White - Lead Me Not (Country Gospel)*

(Lari White/Chuck Cannon)

I step across the danger line

And feel this crazy heart of mine

Go midnight blue

Somewhere an angel sheds a tear

For all the beauty and the fear

Of loving you

It's true that only heaven knows

The way love comes and goes

But I don't have heaven's eyes

I've seen too many sad goodbyes

**Don't leave me lonely**

**Don't leave me blue**

**Don't leave me loving you**

## Don't leave me loving you

Through the shadows of my doubt

I see the love I've lived without

Shine in your eyes

But love can break the truest heart

And leave it in the deepest dark

If the fire dies

It's up to us to tend the flame

Don't let the wind and rain

Keep you from holding on

Baby, please be strong

## Don't leave me lonely

## Don't leave me blue

## Don't leave me loving you

## Don't leave me loving you

## Don't leave me loving you

Baby, be true

## Don't leave me loving you
