Singing My Heart Out

Par Lissi Dancefloor Disaster

Album : Waves

Every bone inside of my body
There will move with body itself
'Cause they know how did I do

I run don't know why
People want me to stop
Stop right there not to love

And they are gonna tell you what

Just a burn in your eyes

Promise I will take this

I will take it high

I'm singing my heart out for you

Singing my heart out

I'm singing my heart out for you

Singing my heart out

One stage one we hold

Why do we do this

Why don't we just stop

I don't know, I don't know

It's hard to get around

In this corrupted phase we're living now

But I know ye I know

And they are gonna tell you what

Just a burn in your eyes

Promise I will take this

I will take it high

I'm singing my heart out for you

Singing my heart out

I'm singing my heart out for you
