You and Me (feat. Kelly Price)

Par LL Cool J

Album : The Greatest of All Time

Damn, you and your man had beef
So he left you Uptown, teary eyed, on the back streets
For me to scoop up in the Bentley drop
Long as God hold me down you know I had to stop
What the deal ma? You wanna use my cell?
You runnin' solo? This block foul as hell
You said my ex be beatin' on me
He mad jealous even though he be cheatin' on me

Hmm, I said miss, let me tell you somethin'
'Bout who's makin major moves and who's frontin', huh
Who's talkin' loud but ain't sayin' nuttin'
And those who get the one they want but keep frontin'

He don't appreciate the well 'til it run dry
Love is blind, it's hard to say goodbye (goodbye)
But smart birds choose to fly
'Cause we livin' in the hood girlfriend, it's do or die

Here's my definition, of love everlasting

I would trade all my cash in, for passion

Tiffany jewels and designer fashions

To hear happiness is mine for the askin'

Every day on my knees I pray

That I would run into someone that make me feel this way

What you think, you wanna ride with L?

Some things are meant to be baby, you never can tell (I wanna ride, with you baby)

Every night, every day

I just sit and dream about you

You and me, you and me

Hold me tight, ecstasy

Makin' love til ever after

Baby you and me, yeah, you and me

Now we dippin' on the FDR

It's one of them lucky nights when you can peep out the stars

We speak without talkin' and the world is ours

When I glance over at ya I can feel your power

You schemin', L want a one-night stand

I'm schemin', she probably in love with her man

But we keep on rollin', hopin' there's somethin' more

Dreamin' about tomorrow and what life got in store

Livin', no drama, we can chill, relax
Sex all night in the morn' count stacks
Sip Grand Marnier and maybe puff a dime sack
But only in moderation, we ain't livin' like that, y'know?

We jetted up the tavern on the green
To talk about love cause the game's extreme
Domestic abuse and everything in between
'Cause I want you to think of me when you need a shoulder to lean on

I'm from Queens, I'ma rep to the fullest
But I'd rather chill with you, 'stead of dodgin' bullets
Glock in the stash I don't really wanna pull it
On some so-called thug cat, that's faker than acrylics

He said your fam be ridin your nerves
And you hate him for never givin you the life you deserve
Remember, the one who hold a grudge is foul
And everything you ever wanted is in front of you now
Whats up?

Every night, every day

I just sit and dream about you

You and me babe, you and me

Hold me tight, ecstasy

Makin' love 'til ever after

You and me babe, yeah, you and me

I promise you, dreams do come true

There's trials and tribulations that we all go through

When your heart's bleedin', how could the sky seem blue?

But listen up shorty, this is what I wanna do

Be there for you, baby care for you

When my dogs stare at you never sharin' you

And to my ex-girlfriend, never comparin' you

And do the things that your ex never dared to do

Time to bounce baby, I'm takin' you home

Look at the moonlight sparkle on the 20 inch chrome

The rocks on my hand got a life of they own

Plus the blend tape's bumpin' and it's settin' the tone

Should I jet to the hotel, is now the right time

Or should I be patient and explore your mind?

You said you grew up in the ghetto and it hurt your heart

Tried to live smart but your dreams fell apart

You dated hustlers and brought 'em customers

They totally destroyed whatever trust their was

Now you hate men and everything they stand for

'Cause you wanna be treated like a queen, not a whore

Close your eyes, don't be afraid to dream

Open your heart to this cat from Queens

Whatever you wanna do, however you wanna do it

Back to back baby, we can get each other through it

Every night, every day

I just sit and dream about you

You and me baby, you and me

Hold me tight, ecstasy

Makin' love til ever after

You and me, yeah, you and me

Every night, every day

I just sit and dream about you

You and me babe, you and me

Hold me tight, ecstasy

Makin love til ever after

You and me babe yeah, you and me

Every night, every day

I just sit and dream about you

Everyday, you and me

Hold me tight, ecstasy

Makin love til ever after

Just you and me baby, you and me

Every night, every day

I just sit and dream about you

You and me yeah, you and me

Hold me tight, ecstasy

Makin love til ever after

Baby you and me yeah, you and me

Every night, every day

I just sit and dream about you

You and me
