Take Over

Par Lollia, Sleeping Forest

Album : Personified

We're rolling down deep into your underground crib

Thought I sent a prior notice card for you

We wanna make this party you don't wanna skip

Gonna be a show to remember

Take over it's time to boogie down

Make over nothing's gonna be the way you might like

Was over when you started with us

You should've thought twice

Walked on thin ice

Hey, game's over

Hey, it's time to boogie down!

Hey, it's time to boogie down!

Hey, it's time to boogie down!

Hey, it's time to boogie down!

You actually thought that you can get away with

Skeletons in your closet? Don't think so

We're gonna reveal the truth out to the public

Put your hands up, time to surrender

Take over it's time to boogie down

Make over nothing's gonna be the way you might like

Was over when you started with us

You should've thought twice

Walked on thin ice

Hey, game's over

We will not live by your rules, dirty work

Your ego has driven you out of truth

You've only played yourself, got no game

Serving you right, say your prayers now

Take over it's time to boogie down!

Make over nothing's gonna be the way you might like

Was over when you started with us

You should've thought twice

Walked on thin ice

Hey, game's over

Take over it's time to boogie down!

Make over nothing's gonna be the way you might like

Was over when you started with us

You should've thought twice

Walked on thin ice

Hey game's over (Game's over)

It's time to boogie down!

Hey, it's time to boogie down!

Hey, it's time to boogie down!

We're rolling down deep into your underground crib

Thought I sent a prior notice card for you

We wanna make this party you don't wanna skip

Gonna be a show to remember

Take over

Make over

Was over

Hey game's over
