# Fatal Attraction

Par Loudblast

*Album : Sensorial Treatment*

When I met you, it was so easy

Pleasures in a high conventional way

So much climax I felt

When you taught me pain

A feeling of never going too far

Caught in an iron collar

Never thinking of scattering from it

Beware of the following step

**Mistake, you don't even think of it**

**Orgasm is your only goal**

**Mistake, your limits aren't the same**

**Will you find your way?**

**Fatal attraction**

**Beginning of your sensorial treatment**

**Fatal attraction**

**End of your basic freedoms**

Her madness is growing

Like a disease

The boundaries of pain

And torture are so near

Escape from this craziness

You guess you can follow

The roads to self-destruction

A feeling of being gone too far

Caught in your own trap

You can't even get away from it

The final step is reached

**Mistake, you don't even think of it**

**Orgasm is your only goal**

**Mistake, your limits aren't the same**

**Will you find your way?**

**Fatal attraction**

**Beginning of your sensorial treatment**

**Fatal attraction**

**End of your basic freedoms**
