Drop Me Off in Harlem

Par Louis Armstrong & Duke Ellington

Album : The Complete Louis Armstrong & Duke Ellington Sessions

Angel baby; you're mine forever

Angel baby, you angel baby you

Who is the dream who starts me dreamin'?

Angel baby

Then keeps me worrying and schemeing

You, angel baby, you

Who starts me walking 'round in clover?

Angel baby

Then flips my crazy heart right over

You, angel baby, you

Who is the chick I would pick

As the absolutely perfect miss for me to kiss?

Who is the girl who can twirl me

Around her finger when we kiss again

Who can imagine what I'd give for

Angel baby?

Just for the chance to love and live for

You, angel baby, you

Angel baby

You're mine forever

(Angel baby) you, angel baby, you

Who is the chick he would pick

As the absolutely perfect miss for him to kiss?

Who is the girl who can twirl him

Around her little finger when they kiss again?

Who can imagine what I'd give for

Angel baby?

Just for the chance to love and live for

You, angel baby, you

Angel baby

You're mine forever

(Angel baby) you, angel baby, you
