For Her Love

Par Marshall Crenshaw

Album : Field Day

Laughing out loud to no one

Thinking 'bout the things I've done

For her love, for her love, for her love

Knowing how wrong I've been

And how I'd do it all again

For her love, yeah her love, for her love

I can't compare anything I've known

To what I feel when we're all alone

And we'll keep havin' our fun, wait and see

Even if it makes demands on me

I'm ridin' on a subway train

And runnin' through the driving rain

For her love, yeah her love, good her love

Knowing how wrong I've been

And how I'd do it all again

Oh for her love, for her love, for her love

We walk together on a summer night

I close my eyes and I feel alright

And we'll keep having our fun, heart to heart

Even if my whole world falls apart

We walk together on a summer night

I close my eyes and I feel alright

And we'll keep having our fun, heart to heart

Even if my whole world falls apart

I'm laughing out loud to no one

Thinking 'bout the things I've done

For her love, yeah her love, for her love

Oh for her love, good love, for her love

For her love, yeah her love, for her love
