*Album : Super Dance Vol. 06 (disc 2)*

Refrain:

I got to give it up, I got to give it up

**I got to give it up, I got to get away**

Give it up, I got to give it up

**I got to give it up, I got to get away**

**Gimme what you want, gimme what I need**

**Gimme what you want, but I got to get away**

**Gimme what you want, gimme what I need**

**Gimme what you want, but I got to get away**

Get away, get away....

Rap 1

Our love is out of sight,

No matter if it's wrong or if it's right

This ain't no matter for frightening people

Get this in your head tonite

I loved you once a long time ago

But times are changin' fast

You asked me once you asked me twice

But still I will say no

Stop - I gotta getaway

No more words for me to say

My love for you is dead and gone

You'll leave this place all alone

Your body and your fingers touched

They drove me once insane

But now I tell you that's the fact

**I got to get away**

Rap 2

Sorry for this hurting statement

I feel burn out to the ground

No more compromise at all

Can bring me back around

Hearts are burning everywhere

But now you've killed the flame in mine

The lightning in my feel is off

Can't have more of my time

Dreams of life time love

Seem good to you but not to me

You say you'll love me all your life

This can't be - can't you see

Stay 'til the break of dawn

Kiss me, hug me on and on

You will see next day

**I got to get away**
