Dinner For Two

Par Matthew Ifield

Album : My Favourite Place To Be

I'll choose my favourite outfit

And you'll do up your hair

You know I made that promise

I said I'll take you there

You've been on my mind

You know I'd rather be by your side

Just me and you

Dinner for two

We'll spend our time

Conversing over a glass of wine

On our rendezvous

Dinner for two

I made a reservation

I kept my schedule clear

You picked out the location

And now we're here

You got me starry eyed

You know I'd rather be by your side

Just me and you

Dinner for two

We'll spend our time

Conversing over a glass of wine

On our rendezvous

Dinner for two

You've been on my mind

You know I'd rather be by your side

Just me and you

Dinner for two

We'll spend our time

Conversing over a glass of wine

On our rendezvous

Dinner for two

And now the restaurant's closing

They've packed up all the chairs

And quietly I'm hoping

That I'll see you again

Oh, now the hour's blue

But I don't wanna see you leave so soon

Just me and you

Dinner for two

We've spent our time

Conversing over a glass of wine

On our rendezvous

Dinner for two
