# Hope You're Okay

I miss your presence and them long hugs

A minute of your pure warmth

A cure for my sad heart

I stopped singing sad songs and managed to move on

Refused to lose our love, amusing what art does

You are now forever embedded and I am indebted and you're just-

Floating through the universe, you know for you I still search

I offered you my heart from the start

When we would talk words in coffee spots and parking lots

Our feelings were concerned

But never let them show too much

Covered 'em with laughter and absurd conversation

That had made me say I loved you when I hugged you

But I didn't have to 'cause we both knew

It was something special that we had

Destiny had crossed our paths

In the past when I was acting extra

Needed grace and well you brought me that

Ironic 'cause you weren't always the most graceful (awkward laugh)

And any chance to make you smile, well I still play them back

Imagine our last pass before you passed

I saw you walking from class

So glad I caught you and had the chance

To tell you I loved you just one more time

I hugged you and you replied "I love you"

A hundred times i've replayed this scene in my mind

You know I still do

I hope you're okay

**I hope you're alright**

**Although the sun's gone, we'll make it through the night**

**I hope you're okay (I hope you're okay)**

**I hope you're alright (I hope you're alright)**

**Although the sun's gone, we'll make it through the night**

We'll make it through the night

**I hope you're okay (I hope you're okay)**

**I hope you're alright (I hope you're alright)**

**And when my day comes-**

**Well, I'll be by your side**

**I'll be by your side**

**Love don't break me down**

**Just the opposite**

**It always turns around-**

## When we're feeling down

And I hope you know your worth, family, for what it's worth, family  
I lost a lot to get high but it ain't worth family  
Hurts when I'm up on the 'Gram; crazy to see  
Another man raising your seed and that's the worst family  
Observed standing afar; correct me, 'cause I ain't just dissing  
You became addicted when we gained some distance  
Did our shaky friendship get you wavy like a lake with fishes  
Or is it your pops passing got you faded like a favorite kick is?  
I paint this with the sacred memories of us playing chicken  
Which is crazy thinking  
Had whips quickly changing lanes they driv'in  
Wrestling fake, you're pinning me- but today it's different  
Your face is thin and missing weight like us late to fitness  
Grades were switching which made you say  
"Nick, I can't wait to finish  
This grade, I may just dip and pick a trade, our favorites did it"  
I made us sit- I studied with you for the latest quizzes  
And you ain't get an A, but hey, you did it  
Dropped out later  
Last we spoke was Wawa; crazy twitches by them pastry dishes  
Cakes and fixings reminiscent to our days as kids and

## When we speak its still 'Nick', ain't no 'Dey' or 'Bishop'

Next time I see you, I'll say, "hey, I miss you  
And "I hope you're okay" (I hope you're okay)

**I hope you're alright**

**Although the sun's gone, we'll make it through the night**

**I hope you're okay (I hope you're okay)**

**I hope you're alright (I hope you're alright)**

And when my day comes

Well, I'll be by your side (I'll be by your side)

**Love don't break me down**

**Just the opposite**

**It always turns around-**

**When we're feeling down**

**Thank you all again**

**Thank you all again**

Thank you all for showing love

Thank you more for showing up

**I hope you're okay (I hope you're okay)**

**I hope you're alright (I hope you're alright)**

**And when my day comes-**

**Well, I'll be by your side**

**I'll be by your side**

**Love don't break me down**

**Just the opposite**

**It always turns around-**

**When we're feeling down**

**Love don't break me down**

**Just the opposite**

**It always turns around-**

**When we're feeling down**

**Love don't break me down**

**Just the opposite**

**It always turns around-**

**When we're feeling down**

**Love don't break me down**

**Just the opposite**

**It always turns around-**

**When we're feeling down**
