Did I Say That

Par Meat Loaf

Album : Live Germany Promoconcert Cologne

So this is what it feels like

To be the one left behind

To give it all you got, then find

You've already changed your mind

And this is what it sounds like

Cryin' on the bed that we both made

Waiting for a sign that you just can't give me

Any kind of sign

And I don't want to be here wide awake

Clingin' to a love that can't be saved

And hangin' off the edge of every word

That you say

And so I asked myself, "Do I love you so much

That I'm willing to let you go?"

And at the tip of my tongue the answer was "yes"

But at the bottom of my heart I'm wondering

Did I say that? Oh, no, no

Did I say that? Oh

Sometimes you know I overreact

And what I say is not a matter of fact

And I wish that I could take it all back

And you know I'd drag myself through fire at your side

And you know the gates of Heaven are surely open wide

And I need some sympathy here

And I need someone to call my own

I'm standing in the light of my mistakes

And begging you, "Come home"

And I know you need some time to run and hide

But the truth is hard to swallow when you're choking on your pride

So I asked myself, "Do I love you so much

That I'm willing to let you go?"

And at the tip of my tongue the answer was "yes"

But at the back of my mind I'm wondering

Did I say that? Oh, no, no

Did I say that? Oh

Sometimes you know I overreact

And what I say is not a matter of fact

And I wish that I could take it all back

But I said that

And I wish that I could take it all back

And I need some sympathy here

And I want a love to call my own

I want to take you in the back seat now

And slowly drive you home

And I know you need some time to run and hide

But the truth is hard to swallow when you're

Choking on your pride

And I don't want to be this wide awake

Fighting for a love that I can't save

And hanging off the edge of every word you say

Knowing that it might make me cry

And I don't want to be this complicating

You can drag it out but I'll be waiting

I stumbled on "I love you" tonight

But it sounded like goodbye

Did I say that?

Did I say that? Oh

Did I tell you that I loved you cause it

Would have been a matter of fact

Did I say that? (This time I'm not letting go)

Did I say that? Oh (This time I'll have and I'll hold)

Did I tell you that I loved you cause it

Would have been a matter of fact, oh

Did I say that? Mm (This time I'm walking through fire)

Did I say that? Mm (This time I'll feed your desire)

Did I say that? Oh (This time I'll stand by your side)

Did I say that? Oh (This time I will be your pride)

Did I say that? (This time I'm not letting go)

Did I say that? (This time I'll have and I'll hold)

Did I say that? (This time I'm walking through fire)

Did I say that?

And I wish that I could take it all back

So this is what it feels like

To be the one left behind

To give it all you got then find

That you've already changed your mind
