German Whip [Remix]

Par Meridian Dan

Album : *German Whip (Remixes) - EP*

Driving a German whip

Driving a German whip

Yo!

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip

See man driving a German whip, nah, but I ain't leaning back

Windows down when I'm cruising past, I be like "guten tag!"

Man better know that it's me in this car, first MC that you see in this car

Brand new CLA, gun metal grey, feds looking at me like I shouldn't be in this car

Blud, I could take this old school, me and Dan broke, sitting on a cold wall

Now I'm in a showroom and the car's got a sheet on it, looking like a kid that don't wanna go school

Like Jme I've gotta stack paper, so I signed my life to the music

I was in a Smart Car, now my car's stupid, German whip but I ain't in Munich

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip

I have got a German whip, my whip is German, my whip is the sickest

When I'm reversing is the only time when I drive that I ever abide by the speed limit

Ooh, am I raw, like driving fast? You and I both

Swear down I could have sworn I just saw Brian Harvey in a car with suicide doors

I was just out driving, nearly hit a lady and her shopping

Wait a minute, hold on, wasn't that? Oh my God, it was Katie Hopkins

I reversed and I hit her, but then I woke up from my dream

Shame it wasn't for real, guess I still get a little defensive if anyone says anything about Lil

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip

Rings on the front, rings on the back

Whip that German, leaning back

And I ain't talking 'bout the trap, but I still got Ps and that

Knock off the tint, fishbowl ting

Skengman mode, Frisco ting

Light up your head, Sisqó ting

See the Bloodline, yeah we go in

Can't talk to me about torque, if you're driving less than a sport

Don't talk to me about brake horse

If the car's slow you might as well walk

Chrome exhaust, look like a baller, yeah of course

German whip I can't go off course

Tell them man they better know who's boss

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip

When I drop an album, ring the chauffeur, straight drive the whip round

When you drop an album, man are so poor that you need a whip round

Skepta knows I don't follow anybody, I drive my life by choice

Sunk my teeth right into the game when I found a biting point

Yeah, brain to mouth, mouth to mic, mic the track and you listen

Yeah, what I'm saying is that I drove from 0 to top 10 in around three minutes

I don't push or pedal but I still accelerate, break that limit

A lot of my friends still sell Class-As, but I'm sitting in an A-Class singing

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip

If you see man driving a German whip

Blacked out window, leaning back

See man driving a German whip

Look like a baller, Ps and that

I don't kick ball, do I look like a baller?

See man driving a German whip

Who told you I move like pauper?

See man driving a German whip
