# Damage Case

Par Metallica

*Album : Load (Remastered Deluxe Box Set)*

Hey babe don't act so scared  
All I want is some special care  
On the run from some institution  
All I want is some constellation

**And I can tell by your face**

I'm a total disgrace  
Put me inside this place

**Move over for a damage case**

Hey baby wait a minute, stop  
Don't run away, don't call a cop  
I ain't lookin' to victimize you  
All I want to do is tantalize you

**I can tell by your face**

I'm all over this place

**I can tell by your face**

Got no time for a damage case

No time baby

Hey babe don't turn away

I'm here tomorrow, gone today

I don't know what you think your game is

I don't care even what your name is

**And I can tell by your face**

You're all over the place

**I can tell by your face**

**Move over for a damage case**

Get the fuck over man
