Damage Case

Par Metallica

Album : Load (Remastered Deluxe Box Set)

Hey babe don't act so scared
All I want is some special care
On the run from some institution
All I want is some constellation

And I can tell by your face

I'm a total disgrace
Put me inside this place

Move over for a damage case

Hey baby wait a minute, stop
Don't run away, don't call a cop
I ain't lookin' to victimize you
All I want to do is tantalize you

I can tell by your face

I'm all over this place

I can tell by your face

Got no time for a damage case

No time baby

Hey babe don't turn away

I'm here tomorrow, gone today

I don't know what you think your game is

I don't care even what your name is

And I can tell by your face

You're all over the place

I can tell by your face

Move over for a damage case

Get the fuck over man
