Why Can't We Live Together

Par Mike Anthony

Album : De Oude Belgen, Volume 2

What the world needs now is love and unity.

No more wars

No more violence just peace for all men.

Why cant we live together?

Evrybody wants to live together.

Why cant we live together?

Evrybody wants to live together.

Why cant we live together?

Tell me why

Tell me why

Tell me why

Why cant we live together?

Tell me why

Tell me why -

Why cant we live together?

Evrybody wants to live together.

Why cant we live together?

No more wars

No more wars

Just a little peace in this world.

No more wars

No more wars

All we want is some peace in this world.

Evrybody wants to live together.

Why cant we live together?

Why we live

Why we live

Why we live together?

Why we live together?

No matter

No matter what color you are still my brother.

I said no matter

No matter what color you are still my brother

Evrybody wants to live together.

Why cant we live together?

No matter

No matter what color you are still my brother.

No matter what color
