Can't Get It Back (Salaam Remi mix)

Par Mis-Teeq

Album : Mis-Teeq

Gave you my love and I can't get it back

Gave you all my time and I can't get it back

Now the ring that you gave me, you can't have it back

'Cause it's just not going down like that

Gave you my time and I can't get it back

Gave you all my love and I can't get it back

Now the things that you gave me, you want them back

But it's just not going down like that

Vers one, when we begun

You know you had a sister all sprung when we hung

'Cause a brother was nice with his tongue

As we played every day

You always knew, just what to say

As we laid and planned to get married the very next May

As time moved on, we were torn

You used to love me from dusk 'till dawn

Now you trippin' from night till morn

You changed your soul

Till you can no longer keep me warm

'Cause the loving we shared was gone

'Cause you better know

That you can't get back

What you put in this relationship

I'm telling you so

'Cause I can't get back

All of my kissing and hugging and loving

So I'm telling you

Gave you my love and I can't get it back

Gave you all my time and I can't get it back

Now the ring that you gave me, you can't have it back

'Cause it's just not going down like that

Gave you my time and I can't get it back

Gave you all my love and I can't get it back (Oh, oh, oh)

Now the things that you gave me, you want them back

But it's just not going down like that

Vers two, now we're through

Up, out my life and away love flew, and it's cool

Put the glass shoe on another young fool

'Cause I had slept while you crept

Couldn't take the heat so away you step, now I'm set

And don't come back for nothing that you left

I gave you my all

But if it's too small, I can't call

'Cause every playa's got to ball

As seasons change, you couldn't hang

But if you think you're coming back for this ring

'Cause you better know

That you can't get back

What you put in this relationship

I'm telling you so

'Cause I can't get back

All of my kissing and hugging and loving

So I'm telling you

Gave you my love and I can't get it back

Gave you all my time and I can't get it back

Now the ring that you gave me, you can't have it back

'Cause it's just not going down like that (Oh oh oh)

Gave you my time and I can't get it back (Oh oh oh)

Gave you all my love and I can't get it back (No, you can't)

Now the things that you gave me, you want them back (You can't)

But it's just not going down like that (You can't have it, no)

Now let me tell you something 'bout me
I don't need no lying man standing next to me
Gonna expose the jo-jokes, the cheatings and no no
And if you say "Suck me one more time"
Then I'm gonna flip back to when I came from
Where people on the streets tell me you've done wrong
Twenty for the ride if you wanna play hard
Tonight if I tap I don't forget
Any time you come around you take what's mine
The ring on my finger meant for a lifetime
Don't worry yourself 'cause I am past your kind
I'm too smart for you, I'm gonna shine for life, that's right!

Get out, out, out
No you can't have it back, silly rabbit

'Cause you better know

That you can't get back

What you put in this relationship

I'm telling you so

'Cause I can't get back

All of my kissing and hugging and loving

So I'm telling you

Gave you my love and I can't get it back

Gave you all my time and I can't get it back

Now the ring that you gave me, you can't have it back (Oh oh oh)

'Cause it's just not going down like that

Gave you my time and I can't get it back

Gave you all my love and I can't get it back

Now the things that you gave me, you want them back

'Cause it's just not going down like that
