### Blue Steel

Par M.O.P.

*Album : To The Death [by Hillside]*

[ Li'l fame ]

Say what, say what, say what?

[ Both ]

I'm packin blue steel(3x)

[ Verse 1: li'l fame ]

Plow! I'm shootin muthafuckas in the belly

Spread em like jelly, play em like skelly

I'm representin for the real niggas

Fake moves, make moves, you fuck around, I have to kill niggas

I pack a nine that have em wanna box

With a gun or I can knock em out the box with a ox

Niggas gotta pay the piper then

And I know you're mad, cocksucker, because it ain't no type of wins

Niggas throw rhymes, I throw rhymes back

If niggas wanna throw crime, I throw crimes back

If niggas wanna throw props, I throw props back

Them niggas wanna throw shots, I throw em back and lay em flat

So if you ever think of tryin to get loose

**I do your ass like bishop did rahiem in juice**

Kid, I'm tellin you now you can't afford it

And I bust a nigga ass quick on the mic that's extorted

Crazed, I rock for days on blaze with laze e laze

You niggas get blazed, the fame can't be fazed

Huh, you couldn't make us for a try out, punk, you die out

I wet shit up even when I got the dry mouth

It's time I let em know the deal

Nowadays shit is real, so I'm packin blue steel

**[ Billy danzenie ]**

**Say what, say what, say what?**

[ Verse 2: billy danzenie ]

Clack-clack, salute from the ill nigga bill

I represent gunsmoke hill, I'm packin blue steel

I'm comin at you to take your wealth

If I endanger your health that's cause you did that your damn self

I blow your muthafuckin back out, I keep a ill feelin

I'm wide open like? john dillon?

When you come, you better be armed, son, see, I works with mine

You know what's happenin to you, it's 'hammer time'

Out the streets a real raw man

I'm top dog, man, I'm your connection with the morgue man

For my peoples I put 2 in your face

(Clack-clack)? with some?

Cause danzine ain't fakin no jammers

A herb nigga tremor, real niggas?

It's cool to see em bangin for that new school

And all my niggas, they work with they tools

**[ Billy danzenie ]**

So make a move (make a move)

**Lick shot (lick shot)**

Cause i'ma blast his muthafuckin ass like a? system?

[ Billy danzenie ]

Yo, if you go we all do, cause you know we all crew

Somebody fuck with me, I know they got to fuck with you too

And cocksucker, you want it

In your next life you're nailed just like the last bitch nigga that fronted

[ Li'l fame ]

So if you want beef just set it

Because it don't cost nothin to send your ass to the paramedics

The four-pound'll make em hit the ground

So buck em down (buck em down)

Buck em, buck em, buck em down
