# Who We Are

Par Mr. Big

*Album : Ten (Deluxe Edition)*

A quarter to closin'

It was whisky and roses

Diggin' in deeper, gettin' comfortably close

A million nights later

A brand-new fire

Constantly savin' our souls

God only knows

The end of this long road

**Everybody stumbles and falls**

**We were never out of love**

**We can make it through the dark somehow**

**For ever could have come and gone**

**But we carry on**

**Connected by the heart**

**It's the better part of who we are**

**Watching you sleeping**

I'm in your dreaming

I can see the life we've been through your face

Taken some chances

We have a few crashes

This is our story livin' every pages

Changing fate

Braving a new wave

**Everybody stumbles and falls**

**We were never out of love**

**We can make it through the dark somehow**

**For ever could have come and gone**

**But we carry on**

**Connected by the heart**

**It's the better part of who we are**

Yeah oh

Love's saving grace

I believe when we take a leap of faith

**Everybody stumbles and falls**

**We were never out of love**

**We can make it through the dark somehow**

**For ever could have come and gone**

**But we carry on**

**Connected by the heart**

**It's the better part of who we are**

**It's the better part of who we are**

**Watching you sleeping**

I'm lost in your dreaming
