Who We Are

Par Mr. Big

Album : Ten (Deluxe Edition)

A quarter to closin'

It was whisky and roses

Diggin' in deeper, gettin' comfortably close

A million nights later

A brand-new fire

Constantly savin' our souls

God only knows

The end of this long road

Everybody stumbles and falls

We were never out of love

We can make it through the dark somehow

For ever could have come and gone

But we carry on

Connected by the heart

It's the better part of who we are

Watching you sleeping

I'm in your dreaming

I can see the life we've been through your face

Taken some chances

We have a few crashes

This is our story livin' every pages

Changing fate

Braving a new wave

Everybody stumbles and falls

We were never out of love

We can make it through the dark somehow

For ever could have come and gone

But we carry on

Connected by the heart

It's the better part of who we are

Yeah oh

Love's saving grace

I believe when we take a leap of faith

Everybody stumbles and falls

We were never out of love

We can make it through the dark somehow

For ever could have come and gone

But we carry on

Connected by the heart

It's the better part of who we are

It's the better part of who we are

Watching you sleeping

I'm lost in your dreaming
