Ego Tripp

Par Mushroomhead

Album : Mushroomhead

Ahahahaha

With a guilt ridden frown

Hidden smiling deep down, laughing at the crowd

Nauseating sound

Laughing at the crowd, nauseating sound

As the blind lead the blind

Crusade for sight

Corralled in the corner, this leash is too tight

Corralled in the corner, this leash to too tight

I can't keep up this act please expand the role

Choking on dialogue you've all heard before;

Choking on dialogue you've all heard before

With a guilt ridden frown hidden smiling deep down

Dying inside paint a smile on this clown;

Dying inside paint a smile on this clown

Tainted face jaded by disgrace, regurgitate your faith!

Fornicate your mind all that hides inside

Roll around, defecate, compensate

Fornicate your mind all that hides inside

Roll around, defecate, compensate the mess you made no escaping

From the end ego-trip punishment,

Ego-trip punishment

Ego-trip punishment

Ego-trip punishment

No escaping from the end ego-trip punishment

Ego-trip punishment

Falling down, you can't get up (can't get up, nothing left to land on)

Falling down, you can't get up (can't get up, nothing left to land on)

Falling down, you can't get up (can't get up, nothing left to land on)

Falling down, you can't get up (can't get up, nothing left to land on)

Falling down, you can't get up (can't get up, nothing left to land on)

Falling down, you can't get up (can't get up, nothing left to land on) etc.

Nothing left to land on!

No escaping from the end, ego trip- punishment

No escaping from the end, ego trip- punishment

Falling down you can't get up

Nothing left to land on

Falling down you can't get up

Nothing left to land on
