Timeless

Par Mystery Skulls

Album : Ultra Rare Vol.3

And our love is so timeless

And our love is so timeless

And our love is so timeless

All my dreams, they have come true

And our love is so timeless

Our love is so timeless

Our love is so timeless

All my dreams, they have come true

All my dreams, they have come true

This ain't no ordinary, temporary love

This is something from a movie I've been dreaming of

It's like I can't live without you, I just can't explain

This love just will never fade

And our love is so timeless

And our love is so timeless

And our love is so timeless

And all my dreams, they have come true

And our love is so

And our love is so

And our love is so

All my dreams, they have come true

And our love is so timeless

And our love is so timeless

And our love is so timeless

All my dreams, they have come true

At last I found you, baby

Like I conjured it up

We could spend a thousand lifetimes, it's like not enough

Every day feels like heaven when I'm near you

This love just will never fade

And our love is so timeless

And our love is so timeless

And our love is so timeless

And all my dreams, they have come true

And our love is so

And our love is so

And our love is so

All my dreams, they have come true

And our love is so timeless

And our love is so timeless

And our love is so timeless

All my dreams, they have come true
