Parting Is Such Sweet Sorrow

Par Nasum

Album : Human 2.0

Born and raised by your rules

Still I disappointed you

But I've always done my best

And it's never good for you

You never gave me air to breath,

You never clipped my wings

And now I've failed again

As a thousand times before

So now you see...

Now you see what became of me

The extremely black sheep of the family

So let me hear your "we told you so"

And get out of my life - fuck you!
