Sorry that we took so long

You probably thought we forgot your song

It makes us smile

Just so you know

To see your eyes at our shows

I wrote this song

While I was drunk

I hope you dont mind

That it was wine

But you called me and said

You dont want your friends to know

But what if you had to go

What about then

What about then mildred

Excuse me I mean music

But what about then

[Chorus:]

Sweet chariot of fire

Come swing us all away

Sing us a song a day

Away, away, zoom [x4]

Or maybe you're in your car just driving away

And everything's okay

Floating around

When theres no need to walk

And theres nothing but gods

And feeling no talk

Where there is golden bees and silver birds

And dreams are like shoot

They come true and heard

Every moment

Feels like a spin mildred

I mean

A spin music

So what about then

[Chorus]

When every star flickers

Bright as a sister

Just but a whisper commands your love

You write sun in the skies

All the flowers harmonize

Thats where your starry eyes will stand above

Mildred, mildred

(Oh f*** i mean mildred)

Mildred, mildred

(How the f*** you gon tell me its mildred)

Mildred, mildred

(Sorry) (not music)

(F*** it)
