World (Price Of Love) -1993

Par New Order

Album : The Best of

I turn sideways to the sun

I keep my thoughts from everyone

It's a jungle, I'm a freak

Hear me talk, but never speak

So I'm stepping out of time

Because breaking is a crime

And it may all be too late

But I've no passion for this hate

That's the price of love (that's the price of love)

Can you feel it? (Can you feel it?)

If we could buy it now (that's the price of love)

How long would it last? (That's the price of love)

And when this building is on fire

These flames can't burn any higher

I turn sideways to the sun

And in a moment I am gone

That's the price of love (that's the price of love)

Can you feel it? (Can you feel it?)

If we could buy it now (that's the price of love)

How long would it last? (That's the price of love)

That's the price of love (that's the price of love)

Can you feel it? (Can you feel it?)

If we could buy it now (that's the price of love)

How long would it last? (That's the price of love)

That's the price of love (that's the price of love)

Can you feel it? (Can you feel it?)

If we could buy it now (that's the price of love)

How long would it last? (That's the price of love)

(That's the price of love)

That's the price of love (can you feel it?)

If we could buy it now (that's the price of love)

How long will it last? (that's the price of love)

If we could buy it now (if we could buy it now)

How long will it last?

(Can you feel it?)

If we could buy it now (if we could buy it now)

How long would it last? (That's the price of love)

If we could buy it now (if we could buy it now)
