06 Let It Go

Par Newsboys

Album : Take Me To Your Leader

You are waiting on a beach

For a healing word to come

Maybe an apology in a bottle

Maybe a flare that says I'm sorry

and the hurting leaves you numb

will you forgive?

will you forget?

will you live what you know?

He left his rights

will you leave yours?

you don't understand it

let it go

You are waiting on a beach

This is where the east meets west

And as another sun sets on your anger

The darkness laughs as the wound destroys

and it turns your prayers to noise

Will you forgive?

Will you forget?

will you live what you know?

He left his rights

will you leave yours?

you won't understand it

let it go

This bitterness you hide

it seeps into your soul

and it steals your joy

til it's all you know

let it go

Will you forgive?

will you forget?

will you live what you know?

he left his rights

will you leave yours?

you won't understand it

let it go

Will you forgive?

will you forget?

will you live what you know?

Beneath the cross

you hear his words

"Father forgive them"

and you know

you can't understand it

let it go
