### 06 Let It Go

Par Newsboys

*Album : Take Me To Your Leader*

**You are waiting on a beach**

For a healing word to come

Maybe an apology in a bottle

Maybe a flare that says I'm sorry

and the hurting leaves you numb

will you forgive?

**will you forget?**

**will you live what you know?**

**He left his rights**

**will you leave yours?**

you don't understand it

let it go

**You are waiting on a beach**

This is where the east meets west

And as another sun sets on your anger

The darkness laughs as the wound destroys

and it turns your prayers to noise

**Will you forgive?**

Will you forget?

**will you live what you know?**

**He left his rights**

**will you leave yours?**

**you won't understand it**

let it go

This bitterness you hide

it seeps into your soul

and it steals your joy

til it's all you know

let it go

**Will you forgive?**

**will you forget?**

**will you live what you know?**

he left his rights

**will you leave yours?**

**you won't understand it**

let it go

**Will you forgive?**

**will you forget?**

**will you live what you know?**

Beneath the cross

you hear his words

"Father forgive them"

and you know

you can't understand it

let it go
