Congratulation, congratulation

Will go in our operation, against the occupation

For elimination the operation, will go in our operation

If Americans act against Afghan nation

We give them in target by our operation

If they want to secure their nation

They shouldn't act against Afghan nation

Americans are terrorist nation

They collect fund for killing other nation

Congratulation, congratulation

Will go in our operation, against the occupation

For elimination the operation, will go in our operation

If American leaders have some faith within their nation

They should spend fund against the poverty of their nation

The [?] Nation

Caused by interruptions of American nation

We give advice to [?] nations

To fight against American [?] nation

Congratulation, congratulation

Will go in our operation, against the occupation

For elimination the operation, will go in our operation
