Zombies

Par Noturnall

Album : Noturnall

What the hell is fucking going on?

You're nothing but zombies!

What the fuck are you waiting for?

You're nothing but zombies!

Zombies!

Zombies!

Zombies!

Zombies!

I am the one!

I am the silent defiant son

I am the one!

All that you know will be undone

Stand up and fight!

Brandish the blade to cut out the lies

I am the light!

Guiding you through the darkest night

Beyond walls there is so much more than this life

Now is the time to change

What the hell is fucking going on?

You're nothing but zombies!

What the fuck are you waiting for?

You're nothing but zombies

I am the one!

I am the beast hungry for thrones

I am the one!

All that you crave will be destroyed

I am the storm!

Cut off the leash blow out their minds

I am the light!

Guiding you through the darkest night

Beyond walls there is so much more than this chains

Now is the time to see

What the hell is fucking going on?

You're nothing but zombies!

What the fuck are you waiting for?

You're nothing but zombies!

What the hell is fucking going on?

You're nothing but zombies!

What the fuck are you waiting for?

You're nothing but zombies!
