Blind

Par Nylist

Album : Blind

We're all fucked!

Too blind to see that the truth

Behind existence is really nothingness

You are protected by a god

I'm far infected and flawed

Do you think that we rest in peace

When our time is up?

Do you think that we rest in peace

When our time is up?

Too blind to see

That the truth is

Hidden inside of your fucking head

When we're gone, we become nothing

Buried inside to deal with dread

Cry goodbye to the fucking sky

Believe it all as a lie

So what if it hurts?

The truth that we become nothing after this world

So what if it hurts?

Wounds don't heal when they are your thoughts

Too blind to see

That the truth is

Hidden inside of your fucking head

Buried inside to deal with dread

Do you think that we rest in peace

When our time is up?

Do you think that we rest in peace

When our time is up?

We're all fucked!

We're all fucked!

We're all fucked!

When we're gone, we don't rest in peace

When we're gone, we become nothing

As we were before birth

I don't believe that we rest in peace
