My Heart

Par Odeal

Album : The Summer That Saved Me

Don't stop what you doing now baby

Tell them feeling be quiet

Both understand already

Nostalgia

Ready to win you over

Baby I'm far from sober

On the way up and you're the drug

I'm gonna trust with my heart

I feel the works of my heart tonight

I'm gonna trust with my heart

I feel the works of my heart tonight

Remember those days

I was out weekends long nights

I was out freakin' deakin'

Jamming out afters

Having some fun

You caught another in my arms

And they caught you a bug

Maybe then we ain't so tuff you see

Can't get over you

I'm gonna trust with my heart

I feel the works of my heart tonight

I'm gonna trust with my heart

I feel the works of my heart tonight
